Examining Ocean's Floor.
The revenue cutters in the north are now assigned to the task of examininvita- | ing the ocean's floor. A modification ing the ocean's floor. A modification of the Alaskan climate in the last year is ascribed to a shifting of warm ocean currents by a lifting of the sea bottom, and the present researches are partly for the purpose of learning what more may be expected in that direction. Besides this, a raising of the floor of Bering sea probably would mean new fishing banks here, augmenting the existing cod fisheries. The salmon run was uninjured by the volcanic disturbance.

At dusk the soldiers began to become unruly as a result of drinking during the day and Calle Comercio, the main street of the city, was filled with armed men. Many fights were taking place and occasionaly rifies and pistols were being discharged in the air, which added to the confusion in the streets. At one time there were about 10 fights taking place between soldiers and governor Gutterrex, who was standing on the custom house steps, runhed to the widdle of the street and separated two soldiers who were quarrelled.

The police runhed as many of the disorderly ones to the juli as they could but were almost helpless among the mass of several thousand ill disciplined rebels who now intest the town.

The rebel commander was in frequent telegraphic communications with his father, Col. Orozco, who is in charge of the Juarez garrison. Gen. Orozco is said to desire the speedy transfer of the troops from Justez to the Casas Grandes region, and trains
